OUR FACILITY

OUR CAPABILITY

Our ability is to harness the foreign technical knowledge and partnerships with the available local resources to provide quality Engineering service in the safest possible manner with minimal impact on the Environment.

As an ISO 9001:2015 and ISO 45001:2018 certified organization MACSOTECH, is totally committed to the principles and practice of Excellence in Quality and comply in full of all the legal obligations that relate to the occupational health, safety and welfare at work of all our employees and others who may be affected by our activities.

LOCAL CONTENT DEVELOPMENT

MPNL understands Nigerian Content to mean that service, activity or good that is substantially or wholly of Nigerian origin, is capable of meaningful development, and whose procurement for incorporation into capital projects will have an eventual multiplier effect on the economy.

MPML's Objectives are as follows:

1. Encourage and ensure the use of made in Nigeria goods and services in our projects
2. Encourage and ensure value addition/fabrication/assembly of project components to be done in Nigeria.

3. Require sub-contractors, who do not provide made in Nigeria goods, fabrication, installation and/or services, to provide a knowledge/technology transfer plan.
4. Search for experienced Nigerians and fully engage them in our projects. Also, encourage subcontractors to engage them in project execution positions
5. Increase the number of Nigerians in each project discipline/skill-pool through training, exposure and certification, thus making them available for other major projects.
6. Involve Nigerian banks, insurance firms and other financial institutions in the contract's financial transactions e.g. Sourcing of venture capital locally.

OUR PARTNERS

POWELL UK is strategic supplier of choice for highly complex and integrated systems for the distribution and control of electrical energy and other critical processes.

Eaton is an intelligent power management company dedicated to improving the quality of life and protecting the environment for people everywhere

EFCO is a Joint Venture Company, promoted by EFCO Maschinenbau GmbH of Germany, the World's largest manufacturer of Valve Reconditioning & Testing Equipment. EFCO is the only API Certified Company for Valve Reconditioning & Testing with state of the art German Machines, Consumables, and SOP's.
